

USB Net Script

Good morning Warrensburg and the surrounding area! This is _____, and I will be your net control for the Warrensburg Area Amateur Radio Club Incorporated **USB Net!** Before we begin, is there any priority, medical, or emergency traffic?

Hearing none, let's get started...

USB stands for **Upright and Still Breathing**, and the purpose of this net each Monday, Wednesday, and Friday morning at 8:00am, is to test morning propagation, our equipment, to wake the world up with a smile, and to let everyone know that YOU have made it to another day.

This is _____, Good Morning!

- The forecast indicates a high of _____, with a low of _____
- And the solar conditions indicate....
- Announcements _____

Please, let me invite you to jump on in to say hi, and tell us about what is going on in your world! Now, let's see who's up and at 'em this morning! Let's begin by taking check-ins from mobile and short time stations. Call now...

Are there any stations with event or club announcements that would like to pass on information to the group this morning? Call now...

Ok let's open it up to any station. Any station that would like to check in to the USB net go ahead and call now...

Are there and Echolink stations out there wanting to check in?

***** Net Control Response Recommendations *****

- Signal report
- Comment on Comments from caller and wish them a great day and a thank you for supporting the net.
- Identify often: This is (Net Callsign), net control for the USB Net, and this is YOUR chance to check in!

To take up dead air and draw in more check-ins, read the USB Net commercials

We run this net Monday's, Wednesdays and Fridays, just to wake the world up one ham at a time!

This net was created due to a request for a regular morning check-in net, so that if something might happen to one of our regular participants, friends and family could be alerted that something may be wrong. This net is a friendly, ham radio way to keep in touch with each other and to say "good morning" as we sip our morning coffee together, and maybe we can generate a conversation or two after the net.

Thank you for participating in today's USB net. Everyone get out there and have a happy and productive day, and hopefully we hear from you on our next net at 8:00am on _____.

**Mention Sunday Night Net on Fridays)

**We also invite you to join us Sunday night @2030 for the JoCo-MO ARRL/ARES 2M net, right here on the W0AU repeater.

Today we had _____ check ins and the net lasted for _____ minutes.

73 everyone, be sure to send in your club dues! I will now return this repeater to routine amateur use. This is _____ clear, and monitoring.
